I hereby confirm that I am an Independent Accountant.

I have reviewed the enterprise's beneficiary records for the year ended 29 February 2016 and have satisfied myself that the percentage of black beneficiaries does not appear to be less than that reflected on this certificate.

I have also received confirmation that Acorn Foundation NPC's gross income for the period reviewed reflected an annual turnover less than or equal to R10 million (ten million rand).

Although the abovementioned are the level of beneficiaries and gross income for the period reviewed, it may be more or less in future. Consequently, this certificate does not serve as a guarantee that the beneficiary and gross income reflected will continue at the same levels.
